

**General Terms and Conditions of Certification
(Allgemeine Zertifizierungsbedingungen - AZB)
of the Conformity Assessment Body of the Physikalisch-Technische Bundesanstalt
for product certifications and QA approvals**

Edition: October 2021

These *General Terms and Conditions of Certification* regulate the certification of products, as well as the approval of the quality assurance of manufacturers, on the basis of a suitable certification scheme for which the *Conformity Assessment Body of the Physikalisch-Technische Bundesanstalt (CAB of PTB)* carries out conformity assessment procedures.

1. The contractual relationship between the CAB of PTB and the Customer commences with the issuing of a confirmation of the order by the CAB of PTB and is valid until the validity of the associated certificate expires. To extend the certification (or the re-certification or re-approval), a new order is to be submitted to the CAB of PTB by the end of the contract. The certificate of the CAB of PTB is valid only during the duration of the contract. The contract ends prematurely if the CAB of PTB withdraws the certificate or if the Customer applies for the termination of the certification. The contract also ends prematurely if the granting of the certificate is refused. The usual end of the contract is the date of the written decision of the CAB of PTB.

2. The subject matter of the contract comprises these *General Terms and Conditions of Certification (AZB)* as well as the contents of the order confirmation of the CAB of PTB, unless something else has been regulated preferentially by legal provisions.

3. During the term of the contract, the CAB of PTB carries out the evaluation and certification procedure and the surveillance measures stipulated by the respective certification scheme in order to determine whether the requirements for a certification are fulfilled. The CAB of PTB will inform the Customer about legally relevant changes, as well as about changes of the certification criteria. The CAB of PTB will render to the Customer also any other information which is of relevance for the conformity assessment procedure. If changes are pending which lead to a different evaluation on the part of the Certification Body, the way of proceeding will be agreed with the Customer. The cost and effort arising from this will be invoiced by the CAB of PTB in accordance with paragraph 5 of these *General Terms and Conditions of Certification (AZB)*.

4. The Customer undertakes to comply with the requirements regulated in the relevant certification scheme and provides assurance, in particular, that

- he/she will promptly give information, in writing, about all the changes planned which affect the scope of the certification,
- the requirements for the certified product or for quality assurance in its certified or approved form will be fulfilled and that their compliance will always be ensured,

- the provisions of the CAB of PTB for the certified product or for the approval of the quality assurance will be complied with,
- reviews and other surveillances of the CAB of PTB which are necessary to correct any deficiencies in implementing the requirements for the certified product or for the recognized quality assurance, are accepted and cooperation is shown to the necessary extent,
- the documents and information necessary for assessments are made available early (as a rule, 4 weeks before commencement of measures to be carried out by the CAB of PTB) as well as that access to the offices is granted to the auditors/experts commissioned by the CAB of PTB for auditing and inspection purposes at any time within usual business hours, also unannounced, if necessary,
- the certificate be used only in accordance with the scope of validity of the certification and not in a manner which would discredit PTB and/or would lend itself to compromising the confidence placed into PTB,
- he/she possesses the necessary marketing rights for the products which are to be assessed by the Conformity Assessment Body within the field of application of the certification for which an order has been placed.

5. To a certification for which an order has been placed, the relevant *Price List of PTB* in the relevant valid version is to be applied. If the certification procedure is broken off or if the issuing of a certificate is refused, the CAB of PTB will invoice the expenses incurred up to this time.

6. The CAB of PTB is entitled to reduce the scope of, to suspend or to withdraw an issued certificate under the principle of proportionality, also after termination of the contractual relationship, provided that PTB discovers that the preconditions for certification, including the requirements for the maintenance of the certification, are not fulfilled permanently or profoundly by the Customer – unless the Customer ensures through suitable remedial measures the compliance with the conditions of issuance. The CAB of PTB is also entitled to withdraw an issued certificate if the Customer does not fulfill his/her payment obligation fixed by the contract. Before the decision for such a measure is made, the Customer is to be given the opportunity to make a statement by a given deadline.

7. The Customer undertakes to not apply the issued certificate and/or the granted use of marks abusively and to prevent the divulgement of misleading or faulty information on the certification. Cases of doubt must be agreed between the Customer and the CAB of PTB beforehand. In case of breaches, the CAB of PTB will, after a previous written hearing, institute suitable measures and is entitled to withdraw the certificate. After expiration of the contract, the Customer may not use the certificate any longer and may no longer apply the specified mark.

8. The Customer is entitled to raise an objection to the decisions made by the CAB of PTB in connection with the certification. Such an objection is to be directed to the CAB of PTB in written form within one month after notification of the decision.

Insofar as the objection is justified, the CAB of PTB will provide suitable remedy without costs ensuing for the Customer. If the Customer objects wrongly and expenses are incurred by the CAB of PTB during the investigation of the matter, then the Customer undertakes to reimburse the expenses according to the *Price List of PTB*. The CAB of PTB is open to complaints and provides assurance that these will be treated in accordance with the relevant internal quality procedure.

9. After expiration or termination of the contract, PTB stores the documents for a period of at least ten years.

10. PTB will make certificates and information on issued and withdrawn certifications accessible to the public. Confidential information, in particular, business secrets, are exempt from this measure. Such information is treated confidentially by PTB and is passed to Third Parties only upon agreement of the Customer or an authorized representative. This does not include facts that are already public or that do not require confidentiality based on their meaning or that underly regulatory obligation for publication. All staff of PTB is legally bound to confidentiality.

11. During the term of contract, each party may prematurely terminate this contract in written form, with immediate effect, if the other party does not – after an unsuccessful written warning with a suitable deadline – fulfil its obligations under this contract. The right to termination also applies,

- if the Customer, in spite of a reminder, does not render payment for the expenses claimed for the execution of the certification and surveillance,

- if the Customer files an application for termination of the certification, for example if the production of the products to which the certification applies is discontinued.

The CAB of PTB will, at any time, be entitled to an extraordinary right to terminate the certification contract for an important reason. In this case, the CAB of PTB has to ensure by appropriate measures that the interests of the Customer will be preserved.

12. All disputes arising in connection with this contract (with the exception of the enforcement of expenses charged) are – if an amicable settlement is not possible – decided finally and bindingly under preclusion of due process of law by a court of arbitration according to the arbitration rules of the *Deutsche Schiedsgerichtsbarkeit e. V. (DIS) (German Arbitration)*. The court of arbitration to be appointed is composed of three arbitrators. Each of the two parties appoints one arbitrator. These two appointed individual arbitrators must then jointly appoint a chairperson of the court of arbitration. Only the chairperson of the court of arbitration has to be qualified to exercise the functions of a judge. If the two individual arbitrators have not agreed upon a chairperson within 30 days of their appointment, the appointment will be made by the *DIS-Ernennungsausschuss (DIS Appointments Committee)*.

13. These "*General Terms and Conditions of Certification (AZB) of the Conformity Assessment Body of the Physikalisch-Technische Bundesanstalt for product certifications and QA approvals*" are applicable in addition to the "*General Terms and Conditions of Business (AGB) of the Physikalisch-Technische Bundesanstalt (PTB)*" in their version valid at conclusion of the contract.

The preceding General Terms and Conditions for Certification are herewith accepted.
