

METROLOGY CLOUD

European Metrology Cloud Questionnaire

Please send the completed questionnaire to jan.wetzlich@ptb.de

Information about your Organization

Name of organization:

Type of Stakeholder:

- Manufacturer
- Market Surveillance
- NMI
- User

Information about you

Specialisation:

Role :

- Management
- Technician

1	Data/Databases	
1.1	Please attach your database scheme here (ER-/UML-modell)	You can use the comment function of the Acrobat Reader to do so.
1.2	Database type	
1.3	If other which one	
1.4	DB manufacturer	Microsoft Oracle Teradata mySQL PostgreSQL other
1.5	If other which one	
1.6	In case of a relational DB	
	Type of database store	column row
	How large are your DBs roughly?	
	How many tables roughly?	

	How many rows per table roughly?	
	Are you using a Document store?	Yes No
1.7	In case of a Document store	
	How many files roughly?	
	How large are the relevant files roughly?	
1.8	How many queries per time?	
1.9	How long until mean query result?	
1.10	How many updates per time?	
1.11	Would/Can you provide exemplary data for testing purposes to the PTB?	yes only pseudo data no
2	System	
2.1	Do you like the node Concept	Yes No

2.2	In case a node would be too big of an investment, would you be willing to store your data on a node together with other manufacturers	Yes No
2.3	Where would you deploy your node	inhouse external datacenter PTB or other NMI
2.4	Do you already have a public key infrastructure	Yes but only internally yes also available to public No
3	Usage	
3.1	How many users would use the Plattform simultaneously?	≤ 5 ≤ 10 ≤ 50 > 50
4	Other	
4.1	Further remarks
